

# KISHORE RAVI

Frontend-Developer | UI/X Designer

kishoresde006@gmail.com | 7397753765 | www.linkedin.com/in/kishore-ravi- |Tiruchirapalli, TamilNadu, India

## OBJECTIVE

Enthusiastic Bachelor of Computer Applications graduate with strong knowledge in programming, web development, and databases. Eager to apply technical expertise to real-world IT projects as a Full Stack developer and contribute to organizational success while continuously enhancing my skills in modern technologies, including UX Design methodologies.

## WORK EXPERIENCE

### Printer Shop Website

→ [Click to ViewProject](#)

*Technologies: HTML, CSS, JavaScript*

- Designed and developed a responsive website for an online printer shop.
- Implemented interactive product listings with categories and search functionality.
- Built a shopping cart system using JavaScript for adding/removing products dynamically.
- Enhanced user experience with clean navigation, responsive design, and CSS styling.
- Demonstrated skills in front-end development and e-commerce website structure.

### Travel Booking Website

→ [Click to View Project](#)

*Technologies: HTML, CSS, JavaScript*

- Developed a user-friendly web portal for booking travel packages and tickets.
- Created responsive landing pages with visually appealing layouts using CSS.
- Added dynamic features like form validation, date pickers, and booking confirmation alerts.
- Integrated search filters for destinations, dates, and budget-friendly plans.
- Focused on improving UI/UX through smooth navigation and interactive components.

### Pipe Shop Management Website

→ [Click to View Project](#)

*Technologies: React.js, Tailwind CSS*

- Built a modern web application for managing a pipe shop inventory and sales.
- Designed reusable React components for product cards, navigation, and dashboards.
- Applied Tailwind CSS for clean, responsive, and mobile-friendly UI.
- Integrated dynamic product listing with add-to-cart and checkout features.
- Showcased proficiency in React state management and modern front-end frameworks, catering to the needs of entry-level positions in tech.
